CONSIDERACIONES GENERALES

Conforme con lo dispuesto por la Ley N° 16.686, que adoptó la Nomenclatura Arancelaria de Bruselas para todos los efectos vinculados con el comercio exterior, la Dirección Nacional de Estadística y Censos, a partir del año 1966, conformó la estructura de las series relacionadas con la materia, a la clasificación establecida por la citada nómina.

Por tal motivo los resultados del intercambio comercial de ese año se presentan con un detalle más amplio que el que se ofrecía hasta 1965, y difiere, en cuanto a su discriminación y agrupamiento, con el que era habitual en las publicaciones anteriores a esa fecha.

La diversidad de clasificaciones que permiten efectuar las nomenclaturas estadísticas de exportación e importación, establecidas por Decretos N° 8999/65 y 8942/65, respectivamente, hicieron posible la presentación de nuevos cuadros de cifras, totalizadas a distintos niveles de la Nomenclatura Arancelaria de Bruselas.

Además, en razón de que la publicación se basa fundamentalmente en fotocopias de las tabuciones resultantes de la compilación mecánica de los datos, para facilitar la interpretación de los mismos se incluyó el detalle completo de las nomenclaturas utilizadas.

El Anuario se integra, por lo tanto, con cuatro tomos que contienen:

Tomo I : Nomenclaturas estadísticas de exportación e importación utilizadas para la compilación de los datos.

Tomo II : Cifras comparativas del intercambio comercial en los últimos 5 años, cuadros resumenes referentes al año 1966, y detalle de las exportaciones e importaciones agrupadas por Secciones y Capítulos de la NAB, clasificadas por países de destino y procedencia de las mercaderías para 1966.

Tomo III : Detalle de las exportaciones del año 1966 discriminadas por productos (item de la Nomenclatura de Exportación) y países de destino, y por aduanas y productos.

Tomo IV: Detalle de las importaciones del año 1966 clasificadas por productos (item de la Nomenclatura de Importación) y países de procedencia y por aduanas y productos.

ACLARACION DE CONCEPTOS:

La información contenida en los cuadros que integran la publicación comprende, para las exportaciones, el total de mercaderías embarcadas durante el año y en cuanto a las importaciones, el de las despachadas a plaza en el mismo período, independientemente de la fecha de su llegada al país.

En todos los casos se indican las cantidades y los valores de las mercaderías negociadas, expresándose estos últimos en moneda nacional y en dólares, de acuerdo con el promedio de las cotizaciones que rigieron durante el mes de compilación de los datos.

NOMENCLATURA :

La clasificación de los productos responde a la nómina contenida en las nomenclaturas establecidas por Decretos Nos. 8999/65 para las exportaciones y 8942/65 para las importaciones.

PAISES:

Los países consignados para las exportaciones se refieren al de destino final de las mercaderías y en las importaciones al de procedencia de las mismas, de acuerdo, en cada caso, con la declaración efectuada en la documentación aduanera respectiva.

CANTIDADES:

Comprenden las cantidades netas declaradas para cada artículo por los exportadores e importadores, expresadas en la unidad de medida que corresponde.

VALORES:

Los consignados para las exportaciones se refieren a los precios F. O.B., en el puerto o lugar de embarque de las mercaderías y, para las importaciones, a los precios C.I.F. puerto argentino o frontera, según la declaración aduanera.
