SERVICIO OFICIAL

# CONSIDERACIONES GENERALES

En el presente folleto, la Dirección Nacional de Estadística y Censos, da a conocer las cifras correspondientes al intercambio comercial mantenido durante el año 1963, con los países integrantes de la Asociación Latinoamericana de Libre Comercio.

En el mismo se incluye el detalle de las cifras clasificadas por partidas del código NABALALC, dentro de cada país, y por países dentro de cada partida, tanto para las exportaciones como para las importaciones.

Para la interpretación de dichos tabulados, se agrega una nómina completa de los productos que tuvieron movimiento en dicho año, con la indicación, en cada caso, del número de partida asignado en el código NABALALC, adicionando las posiciones 8a. y 9a. que permiten su correlación con NAB III. Además, se detallan los países componentes de la ALALC, con su código respectivo.

Cabe señalar que, dentro del cuadro de las exportaciones, se hallan comprendidos todos los embarques realizados con destino a los países integrantes de la zona, siempre que el producto estuviese incluido en las respectivas listas nacionales, vigentes en el año 1963 para cada uno de ellos. Por su parte, el cuadro de las importaciones comprende las mercaderías que figuran en la lista nacional argentina y que han sido despachadas a plaza, procedentes de los países de la Asociación.

Esta publicación contiene además, cuadros generales, en los cuales se consignan para cada uno de los países miembros de la ALALC, los totales del comercio global y de los productos liberados, correspondientes a operaciones realizadas durante los años 1962 y 1963, y sus relaciones porcentuales.

Con el fin de facilitar las comparaciones, se agrega una serie que muestra el movimiento del intercambio intrazonal, agrupando los artículos negociados a través del régimen del Tratado de Montevideo, conforme a la clasificación estadística vigente para el total del comercio internacional de nuestro país.
