## CONSIDERACIONES GENERALES

En el presente folleto, el Instituto Nacional de Estadística y Censos, da a conocer las cifras correspondientes al intercambio comercial mantenido durante el año 1975, con los países integrantes de la Asociación Latinoamericana de Libre Comercio

En el mismo se incluye el detalle de las cifras clasificadas por partidas del código NABALALC, dentro de cada país, y por países dentro de cada partida, tanto para las exportaciones como para las importaciones

Para la interpretación de los tabulados, se agrega una nómina completa de los productos que tuvieron movimiento en dicho período, con la indicación, en cada caso, del número de partida asignado en el código NABALALC, adicionando las posiciones 8a. y 9a. que permiten su correlación con NAB-CUCI.

Además se detallan los países componentes de la ALALC, con su código respectivo.

Cabe señalar que, dentro del cuadro de las exportaciones, se hallan comprendidos todos los embarques realizados con destino a los países integrantes de la zona, siempre que el producto estuviese incluido en las respectivas listas nacionales, vigentes en el año 1975, para cada uno de ellos. Por su parte, el cuadro de las importaciones comprende las mercaderías que figuran en la lista nacional argentina y que han sido despachadas a plaza, procedentes de los países de la Asociación.

En ambos casos se incluyen, además como productos negociados, los que sin figurar en las listas nacionales, están comprendidos en acuerdos de complementación o convenios de cooperación económica.

Esta publicación contiene, además, cuadros en los que se consignan, para cada uno de los países miembros de la ALALC, las cifras comparativas de los años 1974 y 1975, correspondientes a los totales del comercio global y de los productos negociados clasificados, asimismo, conforme a las Secciones de la Nomenclatura Arancelaria de Bruselas.
